

GL2 / XM2 / XV2 Housings

The Underwater Video Power Package

A blend like no other: Canon optics, Gates legendary reliability and Fathom Imaging distortion-free ports combine to create the Gates GL2/XM2/XV2 underwater video system -- a true underwater video power package. The GL2/XM2/XV2 housing can be tasked with important assignments, from underwater productions and marine research to salvage work and military ops. The experts know failure is not an option--that's why they never take a chance.... they take a Gates!

Key Features

Durable, "Bulletproof" machined aluminum, black type III 'hard' anodize finish, and sealed with a nickel-acetate process.

External Color Monitor gives you a big 2.5" picture of your subject for clear, no-guesswork images. (Optional)

Positive Lock stainless steel latches confirm your housing is sealed and secure.

Internal Flip Filter provides quick, effortless use of the color correction filter. Blue or Green water versions available.

Interchangeable Ports for easy switch amongst Flat, Wide, and Super Wide Angle.

Reliable Fingertip Controls are 100% Mechanical -- no sticky buttons, faulty electronics or dead batteries!

High Performance Optics Super wide and macro high performance, distortion-free imaging (Optional)

2-Year Warranty. Only Gates offers a 2-year renewable warranty on all housings.

Accommodates all Camcorder Battery Sizes for maximum shooting between re-charges.

Award Winning Design. Gates housings are born of the same technical expertise that garnered an Emmy for Technical Achievement.
